

Age 29  
Work Pediatric Intern  
Location Pittsburgh, PA  
Gender Female

### MOTIVATIONS

Jaime is trying to learn as much as she can as a pediatric intern and is pulled in different directions by different doctors and medical staff with many patients. She is often on call and wants to be as efficient as possible to maximize her time, but finds herself spending time doing data-entry and contacting other healthcare institutions for files. Jaime likes to read up on the latest medical technology and cutting edge treatments and hopes to implement them in the future to improve the healthcare system.

“ My time should be spent treating patients. I went to medicine to work with people and not to be a data entry clerk. ”

### GOALS

- Understand patient charts, files, and stats quickly
- Collaborate with other medical professionals to diagnose and treat patients effectively
- Learn as much as she can by seeing as many patients as possible

### FRUSTRATIONS

- Spends a lot of time contacting other healthcare institutions for patient files and paperwork
- Unable to upload media files on patients to electronic medical record system
- Finds herself spending too much time trying to find relevant patient information and completing unnecessary documentation

### BIO

Jaime Paillard is currently a pediatric intern at the UPMC hospital. She's new to Pittsburgh, but doesn't have too much time to explore. After long shifts, Jaime likes to catch up on sleep, watch tv, and go out to eat at new restaurants.
